Kuanchung Naval Base has been constructed since [REDACTED] and was first identified on photography of [REDACTED]. This installation, which is located on the east bank of the Yinchouhu near its mouth, has a repair capability for medium combatants.

The maintenance area consists of two graving docks, a floating pier, and eight probable maintenance support buildings. The operations support area contains a floating wharf, a possible pier under construction, and four probable support buildings. The administration and barracks area consists of two probable administration buildings, six probable barracks, and one support building. A probable POL bunker and three support buildings are located south of the barracks area.
